EXPERIENCE

Frontend Developer | MakeitMVP

JUNE 2024 - PRESENT

- Developing an EdTech skill exchange feature, utilizing React with TypeScript.
- Implementing a marketplace for skill seekers and providers, along with a token system to facilitate transactions.
- Developing and maintaining front-end architecture to ensure high performance and compatibility.

Teaching Assistant | BrainStation

MARCH 2024 - AUGUST 2024

- Supported the delivery of the software engineering curriculum, emphasizing practical coding skills and theoretical knowledge.
- Mentored students, aiding in their understanding of concepts and technical challenges.
- Marked students' work, conducted code reviews and provided ongoing support.

Real Estate Agent | EXP Realty

JANUARY 2020 - MARCH 2024

- Led the execution of real estate transactions, ensuring a smooth process and client satisfaction.
- Effectively navigated and facilitated residential real estate transactions, showcasing proficiency in market trends, property valuation, and negotiation skills.

PROJECTS

DevSpace Mobile App

- Developed a React Native app for tech professionals to network and collaborate.
- Handled both front-end and back-end development.

FitnessPro Web Application

- Created a fitness-tracking web application using React, TypeScript, and Node.js.
- Implemented APIs to provide real-time fitness data and analytics.

SKILLS

- HTML, CSS, SASS, Tailwind
- JavaScript, TypeScript
- React JS, React Native
- Node.js, Express.js
- Python
- Agile methodologies
- Version control (Git)

Education

BrainStation | Diploma, Software Engineering

March 2024

OREA College | Real Estate License

March 2018

CERTIFICATIONS

Python for Everybody | University of Michigan

September 2024

Introduction to Cyber Attacks | NYU Tandon School of Engineering

April 2023

Introduction to Front-End Development | Meta

April 2023
